

Böttcherin 60

Washing Agent for Rollers and Blankets

Uses

Washing agent for cleaning printing blankets and rollers in sheetfed and newspaper presses. It is suitable for both manual cleaning and use in automatic installations in sheet-fed offset.

Characteristics

- based on aliphatic hydrocarbons
- flash point approx. 65 °C
- water miscible, corrosion inhibited, free of aromatics
- good cleaning power
- slow evaporation
- good wetting of the roller and blanket surfaces through the inclusion of highly effective emulsifiers
- to be removed with water, leaving no residues
- meets the demands of the „Brancheninitiative“

Application

Follow the automatic washing system manufacturers' operating instructions. If manual cleaning with a hand rag, wear protective gloves during application, follow all press safety instructions.

We recommend matching the parameters of the washing unit to Böttcherin 60. In case of manual cleaning, use Böttcherin 60 undiluted or mixed 1:1 with water. Apply to the blanket and clean with a water damped rag.

Approvals

Böttcherin 60 is approved by the manufacturers Heidelberg, MAN, KBA, Baldwin, and WIFAG for use in their machines. FOGRA certified.

Marking

Böttcherin 60 is classified and marked according to EC-Directive 88/379/EEC - in its latest version. Böttcherin 60 is not classified as a dangerous good in the sense of national and international transport regulations (GGVSE - ADR/RID - GGV See/IMDG).
