

Feboclean WP

Roller Protecting Paste

Uses

Roller protecting paste, to be used on dry running rollers when not printing on all printing units, for use with conventional inking rollers.

Characteristics

- prevents dry running of inking rollers
- prevents higher abrasion and overheating of inking roller surface
- prolongs roller life
- good compatibility with elastomer roller qualities for conventional inks
- not to be used for UV printing rollers (EPDM)

Application

Feboclean WP is applied to the roller by spreading the paste with a spatula over the roller surface. Handling is very easy due to its consistency. After the use of Feboclean WP we recommend our approved washes Böttcherin Blue or Böttcherin 6003.

Marking

Feboclean WP is classified according to EC-Directive 88/379/EEC - in its latest version. It is not classified as a dangerous good in the sense of national and international transport regulations (GGVSE - ADR/RID - GGVS See/IMDG).
